

Madrid, November 6th, 2015

Dear doctors:

I am pleased to take this opportunity to thank the Executive Board of the European Rhinologic Society and the AMC staff, Prof. Hellings and Prof. Fokkens, for giving me the chance to participate in the “22nd International Course of Modern Rhinoplasty Techniques”, held recently in Amsterdam.

It was an honor and a pleasure to receive this fellowship course being it a wonderful event to attend with the participation of world-renowned specialists who took the time and had the patience on sharing their knowledge and experience with us.

The training and involvement acquired during these days has enriched my professional capabilities regarding this surgical procedure giving me the opportunity to consolidate previous knowledge and deal with past uncertainty.

As I reiterate my appreciation and gratitude, I also want certify my interest in recommending and participating in future rhinology courses and programs such as this one. Also, I make valid the opportunity to present to you all the assurances of my highest consideration. Hope we all meet again in a further opportunity.

Best regards,

ITHZEL MARIA VILLARREAL P. MD
